**4. What is the Standardised Base Rate (SBR)?**

The SBR that we offer on this product is based on the benchmark rate specified by Bank Negara Malaysia. The benchmark rate is currently set as the Overnight Policy Rate (OPR), which reflects the monetary policy stance as decided by the Monetary Policy Committee of Bank Negara Malaysia.

**5. What are the possible scenarios that may trigger a change in the Standardised Base Rate (SBR)?**

The SBR can rise or fall due to changes in the benchmark rate, i.e. changes in the Overnight Policy Rate (OPR).

**6. Historical Standardised Base Rate (SBR) for the past 3 years**

Note: SBR is effective from 1 August 2022.

**7. What are my obligations?**

- Financing of Group Credit Family Takaful Plan (GCFT) and financing documentation expenses, subject to total Margin of Advance as approved in the Letter of Offer, if any.
- Customer is to furnish a Certificate of Completion from the Solar vendor duly acknowledged and accepted by customer to the branches for disbursement.
- The financing amount will be disbursed directly to the solar companies upon completion of the solar panel installation.
- For Variable Rate financing, the customer is protected against fluctuation of future increases of rates as the total cost of financing or the maximum profit rate is capped at the CPR. During tenure of financing, the customer will enjoy rebate and pay lower instalment as long as the EPR is lower than the CPR.
- Your monthly instalment is: RM \_\_\_\_\_
- The total payment amount at the end of \_\_\_\_\_ years is: RM \_\_\_\_\_
- Not to discharge the property used to secure the existing financing until this Solar PLUS BAE Personal Financing-i is fully settled.

### 7. What are my obligations?, cont.

### 9. What if I fail to fulfil my obligations?

- Unless otherwise stipulated under the respective type of facility(ies), in the event of default the Bank reserves the right to impose the following:
  - a) For failure to pay any instalments of the facility(ies) from date of the first disbursement until the date of the maturity of the facility(ies), subject to rebate, if applicable. The *ta'widh* (compensation) rate that shall be applied is one per cent (1%) per annum (p.a.) on any overdue amount, or any such rate as approved by Bank Negara Malaysia.

Formula for *ta'widh* on overdue instalment(s) is as follows:

$$\text{Overdue Instalment(s)} \times 1\% \text{ p.a.} \times \frac{\text{No. of Overdue Day(s)}}{365}$$

- b) If the account remains in arrears for a period of ninety (90) days or more, or a default occurs, causing the entire facility(ies) to be recalled or brought to court for judgement before maturity date, late payment charge of one per cent (1%) per annum on the remaining outstanding balance will be imposed.

$$\text{Outstanding Balance} \times 1\% \text{ p.a.} \times \frac{\text{No. of Overdue Day(s)}}{365}$$

**9. What if I fail to fulfil my obligations?, cont.**

- c) For failure to pay any instalments and which failure continues beyond the maturity date of the Financing Tenure or upon judgement, whichever earlier, the compensation rate that shall be applied is the *ta'widh* (the amount that may be compensated to the Bank based on the actual loss incurred due to default) where the *ta'widh* rate is equivalent to the prevailing daily overnight Islamic Interbank Money Market (IIMM) rate on the outstanding balance or any such rate as approved by Bank Negara Malaysia.

The formula for late payment charge after maturity is as follows:

$$\frac{\text{Outstanding Balance} \times \text{IIMM Rate} \times \text{No. of Overdue Day(s)}}{365}$$

- d) The Bank shall not compound the compensation payable to the principal amount/financing amount.

  - Legal action against you may affect your credit rating leading to financing being more difficult or expensive to you.
